

# VIAFLEX DISASTER RELIEF FILM

## RELIABLE SHELTER SOLUTIONS FOR DISASTER RESPONSE

When time matters most, Viaflex Disaster Relief Film delivers dependable, reinforced protection for temporary shelters and emergency coverage. Backed by 40+ years supporting disaster response efforts, our Dura-Skrim® reinforced plastic sheeting is built for rapid deployment and tough conditions.

### Why Viaflex Disaster Relief Film is the one to select

- **Proven performance:** Trusted by FEMA, USACE, Christian outreach organizations and state and local governments.
- **Strength that holds up:** Lightweight, durable construction with 1000-denier scrim reinforcement for strong puncture resistance and tensile strength.
- **Rapid deployment at scale:** High manufacturing capacity for quick ramp-up and fast delivery when emergencies strike.
- **Field-ready features:** Two-color print capability for identification and branding, plus tarp grabbers or tie-down buttons to help speed installation.

Viaflex Disaster Relief Film is built for engineers, project managers and emergency assistance programs that need fast, reliable protection in the aftermath of natural disasters.
